

icotec ag and Biomedica Italia Srl sign an exclusive distribution agreement for the Italian market.

Assago, May 27, 2021 - Biomedica Italia Srl is pleased to announce the signing of an exclusive distribution agreement for the Italian market with icotec ag.

icotec ag is a Swiss manufacturer of nonmetallic spinal implants made from its proprietary BlackArmor® material. With over 15 years of clinical success and more than 40,000 implanted products, icotec ag is the leading provider of carbon/PEEK spinal implants. BlackArmor® offers artefact-free imaging, accurate radiation therapy dosage and reliable follow-up after tumor surgery with stabilization, which makes it the material of choice in spinal oncology as it offers a large variety of treatment options to patients, surgeons and radio-oncologists.

"With this new partnership, Biomedica Italia is strengthening its presence on the market and confirms the vision to play a primary role in the advanced surgical specialties segment, introducing new generation innovative products to improve the quality of patient care and, therefore, people's quality of life "said Oscar Rizzi, Managing Director of Biomedica Italia.

"With this partnership, Biomedica Italia confirms its interest in the spinal surgery market and introduces a product portfolio of growing interest in the field of oncological procedures" said Marco Scarpa, Business Manager of Biomedica Italia.

"After more than five years of successful establishment of the icotec portfolio in Italy by Millennium Srl the time has come and we are extremely proud that we can smoothly transfer, continue and strengthen the market presence in Italy with the highly professional team of Biomedica Italia Srl as our new distribution partner for the Italian market." Roger Stadler, CEO of icotec ag commented.
